CO intermittent-motion horizontal packaging machine

MORE INFO

The **CO machine** is an extremely flexible solution that will allow you to produce sachets sealed on three or four sides also in doypack format. The wide range of accessories give you the possibility to produce single or double sachets joined by vertical perforations with any type of closing system. The completely electronic management, the servo motors, and the operator interface with a broad and bright touch screen make the CO packaging machine highly flexible and accurate.

DOYPACKS: THIS IS THE ONLY PACKAGING MACHINE THAT CAN MAKE SACHETS SEALED ON 3 AND 4 SIDES, BUT ALSO DOYPACKS, WITH OR WITHOUT RECLOSABLE ZIP. THE SACHETS AND DOYPACKS CAN ALSO BE SHAPED.

- CO IS FLEXIBLE IN DOSING AND SACHETS FORMAT.**
- CO IS THE ONLY OMAG HORIZONTAL MACHINE FOR DOY-PACK AND STAND UP PRODUCTION.**
- CO RESPECT THE PRODUCTS BY USING COLD DOSING SYSTEM.**
