The **CS machine** is ideal for customers who need to pack sealed sachets in stick pack format with uniform or diversified products. The versatility of the dosing system and the possibility of integrating any marking unit will allow you to minimize the cycle time and thus increase your production performance. Thanks to our extensive experience, we have succeeded in developing forming collars for the most diverse needs to create the following packages: stick packs with longitudinal, central and lateral seals, and sachets with seals on three sides.

ALL THE SEALING AND CUTTING UNITS ARE INDEPENDENT, REMOVABLE, EASILY ACCESSIBLE TO THE OPERATOR AND ADJUSTABLE WITHOUT THE AID OF MECHANICAL TOOLS, FOR EASY CLEANING AND FORMAT CHANGEOVER.

- CS IS ENERGY EFFICIENT: LARGE OUTPUT WITH SMALL CONSUMPTION.**
- CS HAS A CONSOLIDATED TECHNOLOGY ENSURING THE HIGHEST PRODUCTIVITY.**
- CS USER FRIENDLY AND EASILY ACCESSIBLE TO THE OPERATOR.**
